

1. Management of the various types of degradable and nondegradable waste

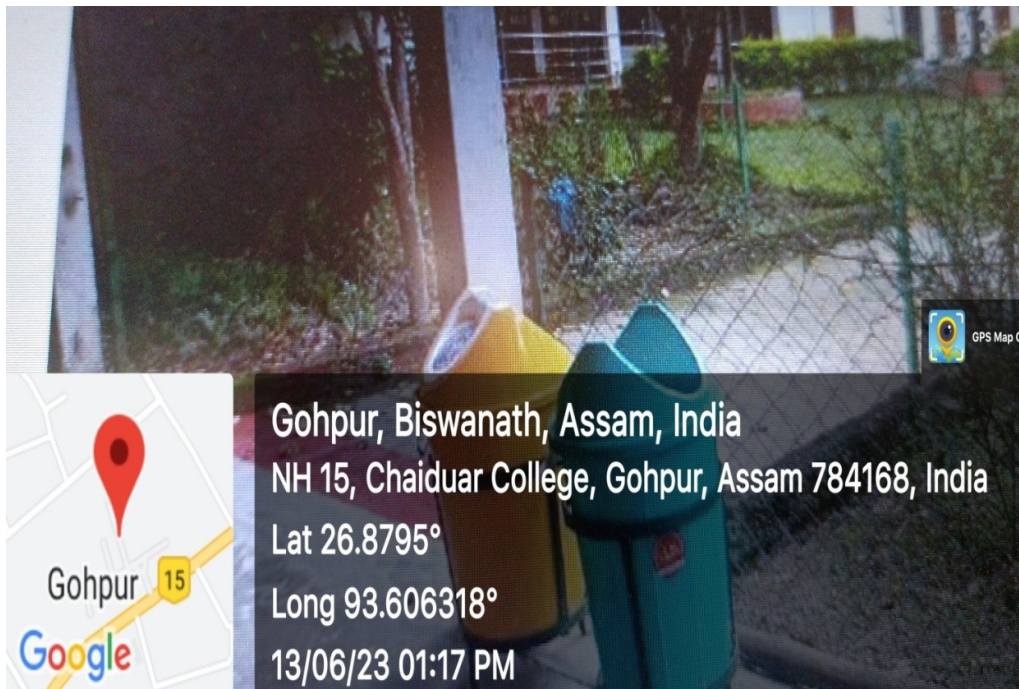

- Chaiduar College has installed bio-degradable waste-bins (made of bamboo) and plastic waste bins at various points of the college campus and all the departments for waste management.
- The college has a dedicated E-waste store-room
- Chaiduar College has signed an MoU with Gohpur Municipal Board for collection and effective disposal of waste from the college campus.

2. Water conservation

- Water storage facilities are available in the college
- Water tanks are installed and water is carried to different locations from these tanks
- Bunds are constructed around the river that borders the college campus
- Two water bodies (ponds) are maintained inside the campus
